

HMT is committed to resolving the challenges confronting the Aboveground Petroleum Storage Tank Industry. Our success is attributed to our exceptionally service-oriented staff dedicated to providing quality products and superior service. Another key element to this success is our solid understanding of the changing industrial and environmental needs of our customers.

HMT is continuously developing new and innovative products and services to meet the ever expanding requirements of our customers.

Our experienced engineering personnel possess the technical expertise required to meet your needs today, as well as advance the technology to meet future challenges.

Global AST Solutions Provider Since 1978

#### Products and Services for Aboveground Storage Tanks

- Tank Products
- Tank Repair Services
- Tank Inspection Services
- Tank Calibration Services
- Painting, Coating & Lining Services
- New Tank Construction Services
- Turnkey Tank Maintenance Management Services
- Government Services
- Engineering Services
- Fabrication Services

# Innovative Solutions

# Full Line Supplier

# Global Services

## HMT Products

HMT is recognized by the Petrochemical and Refining Industry as a leader in supplying a full line of products to the AST market. Work with us and you will understand why.

### External Floating Roof Tanks

#### Geodesic Dome Roofs

#### External Primary Seals

- Mechanical Shoe Seal
- Primary Wiper Seal
- Foam Log Seal
- Tube Seal

#### External Secondary Seals

- Secondary Wiper Seal
- Flex-A-Seal
- Econo-Flex Seal
- Seal King® Low Profile Seal

#### ArcMaster™ Submerged Grounding System

#### Pivot Master® Systems

- Roof Drain
- Fire Foam Delivery
- Floating Suction
- High Capacity Floating Suction

#### Emission Reduction Devices

- Gauge Pole Float
- Gauge Pole Sleeve
- Gauge Pole Float Basin
- Roof Support Leg Sock
- Combination – Gauge Pole/Ladder Negotiator
- Deck Master Pressure/Vacuum Vents
- Gasket & Seal Materials

### Internal Floating Roof Tanks

#### Aluminum Internal Floating Roofs

- Aluminator® Floating Roofs
- Unideck® Floating Roofs
- Hybrid Floating Roofs
- Stainless Steel Floating Roofs

#### Internal Primary Seals

- Mini-Shoe Seal (Steel/Aluminum Roof)
- Retrofit Mechanical Shoe Seal for Aluminum Roofs
- Double Wiper Seal
- SealMaster® Primary Seal
- Mini-Flex Shoe Seal (Steel/Aluminum Roof)

#### Internal Secondary Seals

- VaporFlex® Secondary Seal
- Secondary Wiper Seal
- SealMaster® Secondary Seal

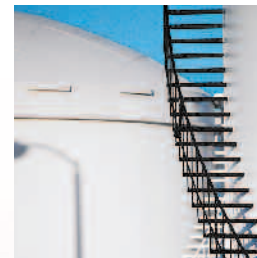

#### Composite Products

- Floating Oil-Water Separator Cover
- Fixed Cone Roof
- Self-Supporting Roof
- Fittings and Appurtenances
- Stairways, Walkways and Platforms

#### Secondary Containment Systems

#### Oil-Water Separator Seals & Covers

#### HMT Capacity Gain and Inventory Reduction Systems

## HMT Services

### Tank Repair

HMT provides tank repair and maintenance services, including bottom replacements, shell repairs, fixed and floating roof repairs and replacements, tank re-Leveling, fittings and appurtenances, special design and engineering work, as well as specialty fabrication and construction project work.

### Inspection

HMT offers the latest in NDE equipment for Aboveground Storage Tank inspections, spheres, and piping with fully qualified ASNT, API 653, 570 & 510 certified inspectors. Our engineering services include evaluations per API 653, API 570 & API 510.

### Calibration

HMT Calibration Services include tank calibration, or “strapping” measurement. The service provided also includes the measurement of barges, ships and any liquid bulk container. These measurements provide the necessary dimensions for the calculation of capacity tables. These measurements and the measurements procedures comply with all applicable API Standards for Tank Calibration.

### Painting, Coating & Lining

HMT's Painting, Coating and Lining Services include a wide variety of internal and external industrial applications for tanks, vessels, piping and other metal and non-metal structures. This Group is experienced in determining the most appropriate coating system for the proposed service environment, including standard and non-standard surface preparation, application methods and techniques and multi-coat systems.

### New Tanks

HMT New Tank Construction Services include the construction of field erected storage tanks to various design standards and specifications, such as API, AWWA and specialty design. In addition to the actual tank construction, this Group provides full design and engineering, civil and mechanical, painting, and other related tank services.

### Engineering

Innovative designs, forward looking designs, tank usability, attention to your bottom line are some of many benefits HMT brings to the table.

### Turnkey

HMT provides Turnkey Tank Maintenance Management Services to include any or all of the various Tank Maintenance services provided by HMT and others, including maintenance planning, cleaning, inspection, repair, product installation, civil and mechanical work, testing, painting and coating, and commissioning. HMT assists tank owners in their Maintenance Management programs, providing a “customized” service designed to meet specific facility needs and requirements.

### Government

HMT's Government Services group is organized to effectively manage the supply of all the company's current products and services to federal, state and local agencies while maintaining the proper documentation often associated with governmental agency contracts.

### Fabrication

HMT is your one-stop resource for all your Aboveground Storage Tank fabricating needs.
