

LEG MASTER

Appurtenances such as floating roof legs and leg sleeves are recommended by various regulatory agencies to be equipped with emissions control devices to further prevent product loss caused by escaping vapors. Designed under the strictest environment regulations, the HMT LEG MASTER and the LEG SOCK® reduce hydrocarbon emissions from the floating roofs support legs and leg sleeves.

Choose the **HMT LEG MASTER** or the **LEG SOCK®** to eliminate emissions from tank legs and leg sleeves.

Key benefits:

The HMT LEG MASTER key benefits are:

Fast, easy installation – in certain cases, while the tank is in service

Quick delivery – within two weeks of order receipt

Designed with the strictest environment regulations in mind

Long service life – premium materials for the harshest environments

Key design features:

- Material is based for the toughest situation; a specially formulated EDPM
- The material is impervious to weather aging, stored products, ozone and ultraviolet exposure
- Excellent EDPM's dynamic and mechanical properties
- Supplied in many sizes to fit most of floating roof legs and sleeves.

LEG SOCK®

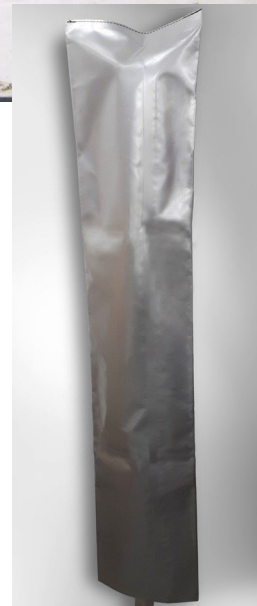

Key benefits

- Fast, easy installation*— in certain cases, even while the tank is in service
- Quick delivery*— within two weeks of order receipt
- Designed with the strictest environment regulations in mind*
- Long service life*— premium fabric options for the harshest environments

Key design features

- Fabric choices depending on needs and environment; specially formulated Urethane fabric with UV protective coating or PTFE (Teflon®)
- Fabric is impervious to weather, stored products and ultraviolet rays

Leg Sock - available in polyester material too.

ABOUT HMT

HMT is the global leader in aboveground storage tank solutions. HMT provides advanced solutions to reduce emissions, optimize tank capacity, reduce stranded inventory and engineer a tank system that exceeds safety standards and extends maintenance intervals.

HMT's full suite of tank products includes: Internal/External Seal Systems - Internal/External Floating Roofs - Drain and Floating Suction Systems - Aluminum Domes - Emissions Reduction Devices.

HMT's quality services include: Tank Repair & Maintenance - Floating Roof & Seal Repair/Replacement - Installation Services - Fabrication Services - Project Management/Turnkey - Inspection, Calibration, Verticality & Roundness Studies - New Tank Construction - Engineering Services.
