DESIGN

Dunham Engineering was founded in 1992 by Jimmy Dunham, P.E. as a water tank consulting firm. Today, Dunham provides a wide variety of storage tank and corrosion engineering services. Our expertise specializes to provide long-term value and minimize costly damage from use and outside elements for your tank project.

- New Tank Design (AWWA, API, ASME, NFPA)
- Turnkey Rehabilitation and Maintenance
- Repair Work Scope Generation
- Containment (i.e., shroud) & Lead Abatement Design
- Corrosion Evaluation & Rehabilitation
- EPA-SPCC Plan Design & Certification
- Hydrotest Exemptions
- Finite Element Analysis (FEA)
- Bottom Settlement Rigorous Stress Analysis
- Wastewater Plant Design and Repair
- Water tanks, pressure tanks and fuel tanks, ***we know tanks!***

RESULTS

WHAT **OUR** CLIENTS SAY ABOUT **US**

"This is one of the smoothest construction projects I have had in a while, thanks to Dunham Engineering's services."

"I really appreciate a professional outfit like Dunham Engineering!"

"We value your company and appreciate the quality work that you and your staff have put forth in completing the project in a timely fashion."

"Dunham Engineering has always had great customer service and people who will sit down and explain what's wrong and how to fix it in plain English that anyone can understand."
